1. Look at the chart before you feed. If the box is ticked, the dog has eaten.
2. Straight after feeding, tick the box and write your name and the time.
3. Put the chart where everyone passes, like the fridge, and start a new one each week.

Vet _____ Vet's phone _____

Skip the paper. Wolfed puts this chart on everyone's phone, shows who fed the dog, and reminds the whole household when a meal is due and nobody has marked it fed. Free on Android and iPhone, with no account.
